

Nigeria Energy Leadership Summit

15 – 17 October 2024

Landmark Convention Centre, Lagos

Overview

Theme - Breaking barriers in the new energy era: Clean, Reliable and Sustainable

Nigeria's electricity sector is undergoing a dynamic transformation. Key reforms like the Electricity Act 2023, a focus on renewables, and updated tariff structures aim to boost efficiency, attract investment, and pave the way for a sustainable future. Collaborative opportunities are opening doors for investors with clean energy solutions.

However, significant hurdles remain. Operational issues like gas shortages, energy theft, non-payment of bills, and inadequate maintenance continue to hamper power stability across West Africa. These interconnected challenges demand a comprehensive approach. Bilateral and multilateral financing will play a crucial role in unlocking needed investments and propelling power projects forward.

This year's Nigeria Energy Leadership Summit takes on a bolder and more comprehensive perspective. While acknowledging the challenges hindering regional power stability, the summit delves into the most pressing topics in West Africa's energy landscape including power trade, digital transformation, supply chain advancements, balancing profitability & sustainability and the ESG imperative. A dedicated day focused on gas-to-power solutions highlights the importance of energy security and project development.

The upcoming Nigeria Energy Leadership Summit serves as a vital platform to explore a multitude of potential partnerships and investment opportunities across the entire energy value chain.

Key Topics

- Sustainable Power Generation: Balancing Profitability and Environmental Impact
- Investing in Tomorrow: Navigating the \$360 Billion Energy Transition
- Blueprints for the Future: Gazetting Nigeria's Energy Vision
- Financing, Policy, and Innovation: The key ingredients for catalysing Nigeria's conventional utility-scale projects ecosystem – A West African perspective
- Exploring the potential of hydrogen to accelerate West Africa's transition to a clean and sustainable energy future

Conference Committee

Leadership Summit Conference Committee members

- **Abba Abubakar Aliyu**, Managing Director/CEO, **Rural Electrification Agency (REA)**
- **Abi Odeinde**, Partner, **Olaniwun Ajayi LP**
- **Adedayo Olowoniya**, Chief Technical Adviser to the Honourable Minister of Power, **Federal Ministry of Power, Nigeria**
- **Adeola Sunmola**, Partner, **Udo Udoma and Belo-Osagie**
- **Dr. Ayodele Oni**, Partner, **Bloomfield Law Practice**

- **Dolapo Kukoyi**, Managing Partner, **Detail Commercial Solicitors**
- **Ibi Ogunbiyi**, Partner, **Olaniwun Ajayi LP**
- **Jitender Sachdeva**, Group President, **SkipperSeil Limited**
- **Joseph Nwakwue**, Partner, **Zera Advisory and Consulting**
- **Prof Magnus Onuoha**, President Governing Council, **Renewable Energy and Energy Efficiency Associations Alliance(REEEAA)**
- **Olakunle Williams**, CEO, **Tetracore Group**
- **Dr. Owen Omogiafo**, President and Group CEO, **Transcorp**
- **Dr. Owolabi Sunday**, Acting Director, Renewable and Rural Power Access Department, **Federal Ministry of Power, Nigeria**
- **Sadiq Wanka**, Special Adviser to the President on Power Infrastructure, **Office of the Vice President, Federal Republic of Nigeria**
- **Sowunmi Olabode**, Consultant to the Senate Committee on Gas, **Senate of Nigeria**
- **Paschal Odinde**, Board Member, Future Energy Leaders Network, **Shell Nigeria**
- **Prof. Kafayat Adeyemi**, Professor of Energy and Environmental Engineering, Director Energy Research Centre, **University of Abuja**

Technical Seminar Committee members

- **Engr. Barnabas Gwaivangmin**, MNIEEE, National Vice Chairman – Power, **The Nigerian Institute of Electrical and Electronic Engineers (NIEEE)**
- **Chimaobi Nna**, Head, Energy Management (NCEEC), **Energy Commission of Nigeria(ECN)**
- **Prof Magnus Onuoha**, President Governing Council, **Renewable Energy and Energy Efficiency Associations Alliance(REEEAA)**

Confirmed speakers:

- **Abba Abubakar Aliyu**, Managing Director/CEO, **Rural Electrification Agency (REA)**
- **Abi Odeinde**, Partner, **Olaniwun Ajayi LP**
- **Adeola Sunmola**, Partner, **Udo Udoma & Belo – Osagie**
- **Adetayo Bamiduro**, CEO, **MAX**
- **Ademola Ogunbanjo**, Executive Vice President, **Oando Clean Energy Limited**
- **Agatha Nnaji**, Managing Director, **Geometric Power Group**
- **Dr. Ainojie 'Alex' Irune**, Executive Director, Oando Plc & COO, **Oando Energy Resources**
- **Alonge Longe**, GM, Power Business (New Energy), **Seplat Energy Plc.**
- **Akinwale Omoboriowo II**, Chairman and CEO, **Genesis Energy Group**
- **Biodun Ogunleye**, Honourable Commissioner, **Lagos State Ministry of Energy and Mineral Resources**
- **Engr. Chibueze Ekeh**, Chief Executive Officer, **Ceesolar**
- **Chijioke Uzoho**, Managing Director and CEO, **Gas Aggregation Company of Nigeria(GACN)**
- **Chinedum Okuh**, Transformation Manager, **Shell**
- **Chucks Umezulora**, CEO, **Auxano Solar**
- **Dele Kuti**, Global Head, Energy & Infrastructure, **Standard Bank Group**
- **Dolapo Kukoyi**, Managing Partner, **Detail Commercial Solicitors**
- **Engr. Edu Okeke**, Managing Director, **Azura Power West Africa Ltd.**
- **Dr. Joy Ogaji**, MD/CEO, **Association of Power Generation Companies (APGC)**
- **Dr. Mustapha Abdullahi**, Director General, **Energy Commission of Nigeria (ECN)**
- **Felix Ekundayo**, President, Nigeria LP Gas Association/MD, **Asiko Energy Limited**
- **Fola Fagbule**, Deputy Director & Head, Financial Advisory, **African Finance Corporation**
- **Gbemisola Abiola-Ige**, Head, Risk Management & Portfolio Optimization, **Nigeria LNG Limited**

- **Habeeb Alebiosu**, CEO, **Viathan**
- **Hakeem Disu**, Co-Founder, **Lihon Energy**
- **Heine Melkevik**, CEO, **Carbon-Limits Nigeria**
- **Ibi Ogunbiyi**, Partner, **Olaniwun Ajayi LP**
- **Ifeoma Finnih**, Senior Vice President, **Chapel Hill Denham**
- **Jitender Sachdeva**, Group President, **SkipperSeil Limited**
- **Jumoke Ayo-Famisa**, Senior Vice President, **Stanbic IBTC Infrastructure Fund**
- **Prof. Kafayat Adeyemi**, Professor of Energy and Environmental Engineering, Director Energy Research Centre, **University of Abuja**
- **Engr. Lamu AUDU**, MD/CEO, **Mainstream Energy Solutions Limited**
- **Mahamadou Diarra**, Deputy Director, **French Development Agency (AFD)**
- **Meyen Etukudo**, CEO, **Ibom Power**
- **Mokhtar Bounour**, CEO, **Egbin Power Plc.**
- **Dr. Musiliu Oseni**, Commissioner, **Nigerian Electricity Regulatory Commission (NERC)**
- **Nicholas Okafor**, Partner, **Udo Udoma & Belo – Osagie**
- **Oga Adejo-Ogiri**, Executive Secretary, **ALDG**
- **Oliver Onyekweli**, Partner, **McKinsey & Company**
- **Osayande Igiehon**, CEO, **Heir Energies**
- **Oti Ikomi**, Exec. Vice-Chairman & CEO, **Proton Energy Africa**
- **Samuel Nwanze**, ED/CFO, **Heirs Oil & Gas**
- **Seun Edun**, Country Director, Nigeria, **PowerGen Renewable Energy**
- **Sowunmi Olabode**, Consultant to the Senate Committee on Gas, **Senate of Nigeria**
- **Suleiman Babamanu**, Nigeria Program Director, **RMI**
- **Sunday Olurotimi Oduntan Esq**, MD/CEO, **Association of Nigerian Electricity Distributors (ANED)**
- **Taiwo Adeshina**, Partner and Sector Head, Energy & Infrastructure, **Jackson, Etti & Edu**
- **Tony Tiyou**, CEO, **Renewables in Africa**
- **Tosin George**, Founder, **The Energy Africa**
- **Victor Ezenwoko**, Country Director, **Daystar Power**
- **Wola Joseph-Condotti**, Group Managing Director/CEO, **West Power & Gas Limited**

What's new for 2024?

- **Ample networking opportunities:** The summit will provide ample time for attendees to connect and build relationships with industry peers.
- **West Africa in focus:** Dedicated sessions will delve into the specific challenges and opportunities facing the energy sector in West Africa.
- **Deep dive into gas-to-power:** A special day will be dedicated to in-depth discussions on gas-to-power solutions for the region.
- **Challenges and collaboration:** Focused discussions for DisCos (distribution companies) and GenCos (generation companies) will offer insights into industry hurdles and foster collaboration for solutions.
- **New and fresher subjects:** Pressing and evolving subjects that are changing the energy narrative in West Africa

Agenda

Day One

Tuesday, 15 October 2024

- 10:00 Delegate registration**
- 10:15 Summit doors open and delegate networking**
- 10:30 Welcome by the Emcee**
- 10:35 Welcome remarks by Informa Markets**
- 10:45 Inaugural address by host city**
- 10:55 Opening address by the guest of honour**
- 11:05 Ministerial opening address – Lighting Up the Future: Nigeria’s Sustainable Energy Journey**
- 11:25 Keynote address: Nigeria’s gas market – The billion-dollar opportunity for financiers**
- 11:45 Sponsor address:**
Jitender Sachdeva, Group President, SkipperSeil Limited
- 11:55 Sponsor address:**
Akinwole Omoboriowo II, Chairman and CEO, Genesis Energy Group
- 12:15 Keynote address: Blueprints for the Future: Gazetting Nigeria’s Energy Vision**
Dr. Mustapha Abdullahi, Director General, Energy Commission of Nigeria (ECN)
- 12:30 Plenary Address: Nigeria’s Electricity Tariff Reforms – The winning move to sustainable energy supply**
Dr. Musiliu Oseni, Commissioner, Nigerian Electricity Regulatory Commission (NERC)
- 12:50 Delegate Networking & Lunch | Exhibition Visit**
- 14:40 High-level panel - Empowering Nigeria’s Power Sector: A Year After the Fifth Alteration Bill No. 33”. Insights into the unfolding reality of the National Grid System and the New Electricity Act 2023**
Biodun Ogunleye, Honourable Commissioner, Lagos State Ministry of Energy and Mineral Resources
Sunday Olurotimi Oduntan Esq, MD/CEO, Association of Nigerian Electricity Distributors (ANED)
Dr. Musiliu Oseni, Commissioner, Nigerian Electricity Regulatory Commission (NERC)

Moderator: Dolapo Kukoyi, Managing Partner, Detail Commercial Solicitors
- 15:45 In Conversation with GenCos - Sustainable Power Generation: Balancing Profitability and Environmental Impact**

Engr. Lamu AUDU, MD/CEO, Mainstream Energy Solutions Limited
Engr. Edu Okeke, Managing Director, Azura Power West Africa Ltd.
Oti Ikomi, Exec. Vice-Chairman & CEO, Proton Energy Africa
Engr. Meyen Etukudo, CEO, Ibom Power
Agatha Nnaji, Managing Director, Geometric Power Group

Moderator: Nicholas Okafor, Partner, Udo Udoma & Belo – Osagie

16:45 Closing remarks by the guest of honour

16:50 Summary and closing remarks by the Emcee – Day 1

17:00 Business networking

17:30 End of Conference

Day Two

Wednesday, 16 October 2024

10:00 Welcome remarks by Emcee

10:05 Keynote: Financing Nigeria's Path to 2060 – What's Next?

10:20 Fireside Chat: Investing in Tomorrow: Navigating the \$360 Billion Energy Transition

Samuel Nwanze, ED/CFO, Heirs Oil & Gas

Moderator: Jumoke Ayo-Famisa, Senior Vice President, Stanbic IBTC Infrastructure Fund

10:40 Panel - Financing, Policy, and Innovation: The key ingredients for catalysing Nigeria's conventional utility-scale projects ecosystem

Fola Fagbule, Deputy Director & Head, Financial Advisory, African Finance Corporation
Chinua Azubike, CEO, InfraCredit

Moderator: Ibi Ogunbiyi, Partner, Olaniwun Ajayi LP

11:40 Panel - Financing Renewable Energy Projects in West Africa: The Role of Partnerships, Collaboration and Regulatory Support

Chucks Umezulora, CEO, Auxano Solar
Mahamadou Diarra, Deputy Director, French Development Agency(AFD)
Seun Edun, Country Director, Nigeria, PowerGen Renewable Energy
Hakeem Disu, Co-Founder, Lihon Energy

Moderator: Adeola Sunmola, Partner, Udo Udoma & Belo – Osagie

12:45 Keynote : Sun, Wind and Water: Harnessing Nigeria's Renewable Power Potential
Abba Abubakar Aliyu, Managing Director/CEO, Rural Electrification Agency (REA)

13:00 Delegate Networking & Lunch | Exhibition Visit**14:30 Panel discussion: Exploring the Future of Solar-Hydro Hybrid Energy**

Abba Abubakar Aliyu, Managing Director/CEO, **Rural Electrification Agency (REA)**
Prof. Kafayat Adeyemi, Professor of Energy and Environmental Engineering, Director Energy Research Centre, **University of Abuja**
Engr. Chibueze Ekeh, Chief Executive Officer, **Ceesolar**
Olusegun Odunaiya, CEO, **Haven Hill Synergy**
Victor Ezenwoko, Country Director, **Daystar Power**

Moderator: Tony Tiyou, CEO, **Renewables in Africa**

15:30 Presentation: Exploring the potential of hydrogen to accelerate West Africa's transition to a clean and sustainable energy future

Ayodeji Stephen, Senior Energy Policy and Hydrogen Research Fellow, **Africa Energy Council**

15:45 Fireside Chat: What's next – Unveiling the EV revolution in West Africa

Adetayo Bamiduro, CEO, **MAX**
Ademola Ogunbanjo, Executive Vice President, **Oando Clean Energy Limited**

Moderator: Mosopefoluwa Falana, Senior Associate Deputy Sector Head of Energy & Infrastructure sector, **Jackson Etti & Edu**

16:15 Fireside Chat: Africa on the Rise - Can Emissions Trading Unlock its Green Potential?

Heine Melkevik, CEO, **Carbon-Limits Nigeria**
Taiwo Adeshina, Partner and Sector Head, Energy & Infrastructure, **Jackson, Etti & Edu**
Wola Joseph-Condotti, Group Managing Director/CEO, **West Power & Gas Limited**

Moderator: Tosin George, Founder, **The Energy Africa**

17:00 Summary and closing remarks - Day two**17:10 Business networking**

Day Three
Wednesday, 17 October 2024**Gas-to-power Summit****10:00 Welcome by the Emcee****10:05 Keynote Address****Olakunle Williams, CEO, Tetracore Group****10:25 Panel: Policy and Regulatory Frameworks for LNG, LPG, CNG and Gas to Power****Felix Ekundayo, President, Nigeria LP Gas Association/MD, Asiko Energy Limited****Dr. Ainojie 'Alex' Irune, Executive Director, Oando Plc & COO, Oando Energy Resources****Dr. Joy Ogaji, MD/CEO, Association of Power Generation Companies (APGC)****Moderator: Sowunmi Olabode, Consultant to the Senate Committee on Gas, Senate of Nigeria****11:25 Panel - Gas to Power Generation: Market Dynamics and Energy Security****Presenter: Oliver Onyekweli, Partner, McKinsey & Company****Osayande Igiehon, CEO, Heir Energies****Mokhtar Bounour, CEO, Egbin Power Plc****Habeeb Alebiosu, CEO, Viathan****Oga Adejo-Ogiri, Executive Secretary, ALDG****Moderator: Oladayo Williams, Program Executive, Tetracore Group****12:20 Panel - Building the Infrastructure for Tomorrow's Gas to Power Projects****Dr. Joy Ogaji, MD/CEO, Association of Power Generation Companies (APGC)****Chijioke Uzoho, Managing Director and CEO, Gas Aggregation Company of Nigeria(GACN)****Moderator: Gbemisola Abiola-Ige, Head, Risk Management & Portfolio Optimization, Nigeria LNG Limited.****13:00 Fireside chat: Financing Innovations in the Gas Sector and Investor Perspectives on Gas to Power projects****Ifeoma Finnih, Senior Vice President, Chapel Hill Denham****Dele Kuti, Global Head, Energy & Infrastructure, Standard Bank Group****Alonge Longe, GM, Power Business (New Energy), Seplat Energy Plc.****Moderator: Chinedum Okuh, Transformation Manager, Shell****13:45 Summary and closing remarks - Day three****14:00 Delegate Networking & Lunch | Exhibition Visit**

Session Information

Day One Tuesday, 15 October 2024

10:00 Delegate registration

10:30 Summit doors open and delegate networking

10:45 Welcome by the Emcee

10:50 Welcome remarks by Informa Markets

10:55 Inaugural address by host city

11:10 Opening address by the guest of honour

Energizing Nigeria's Future: A Bold Path to Sustainability

11:30 Ministerial opening address – Lighting Up the Future: Nigeria’s Sustainable Energy Journey

Attendee insights: This keynote will outline the Federal Ministry’s plan for ramping up generation, transmission and distribution activities, how it aligns with Nigeria's energy transition framework, highlighting the key goals and objectives set by the government. It will discuss the current policies and regulatory environment supporting energy access and the expected milestones.

11:55 Keynote address: Nigeria’s gas market – The billion-dollar opportunity for financiers

Attendee insights: Nigeria is poised to become a dominant player in the global gas market, boasting an estimated resource base of 600 trillion cubic feet (tcf). The session will explore the opportunities in store and how foreign financiers and project developers can capture high returns by participating in Nigeria's rapidly growing gas sector and contribute to sustainable development by fueling Nigeria's energy future

12:15 Keynote address: Blueprints for the Future: Gazetting Nigeria's Energy Vision

12:45 Plenary Address: Nigeria’s Electricity Tariff Reforms – The winning move to sustainable energy supply

Attendee insights: Understand how the recent reform towards cost-reflective tariffs will lead to sustainable energy supply in Nigeria

13:10 Delegate Networking & Lunch | Exhibition Visit

14:40 High-level panel - Empowering Nigeria’s Power Sector: A Year After the Fifth Alteration Bill No. 33”. Insights into the unfolding reality of the National Grid System and the New Electricity Act 2023

The power sector decentralization bill, which was signed into law in 2023, permits 36 states to generate, transmit and distribute electricity in areas that are currently covered by the National grid. After a year of bill release, this panel will examine the bill's effects on the Nigerian Electricity Supply Industry's (NESI), structural improvements, economic opportunities, and emerging challenges and impact on end-users.

Attendee insights:

An in-depth discussion that examines in detail the major changes introduced by the Act on all sources, for the generation, transmission, and distribution of electricity, including the integration of renewable energy into Nigeria's energy mix

15:45 In Conversation with GenCos -

Sustainable Power Generation: Balancing Profitability and Environmental Impact

Delve into the intersection of profitability and sustainability in power generation. The panel will discuss clean energy technologies, emissions reduction, and responsible resource utilization.

Attendee insights: Hear from leading GenCos the best practices for integrating renewable energy sources into the grid, the economic benefits of transitioning to cleaner fuels, regulatory frameworks promoting sustainable practices and the role of collaboration for a greener energy future.

16:45 Closing remarks by the guest of honour

16:50 Summary and closing remarks by the Emcee – Day 1

17:00 Business networking

17:30 End of Conference

Day Two
Wednesday, 16 October 2024**10:00 Welcome remarks by Emcee****10:05 Keynote: Financing Nigeria's Path to 2060 – What's Next?**

Attendee insights: This keynote will deep dive into the \$10 billion annual investment required to achieve Nigeria's energy transition by 2060. It will discuss the financial strategies, the role of international collaborations, and the involvement of the private sector in funding this ambitious goal.

10:20 Fireside Chat: "Investing in Tomorrow: Navigating the \$360 Billion Energy Transition"**10:40 Panel - Financing, Policy, and Innovation: The key ingredients for catalysing Nigeria's conventional utility-scale projects ecosystem – A West African perspective**

The session addresses several key challenges and solutions around the development and financing of utility-scale projects.

Attendee insights: Hear about regulatory and policy hurdles, infrastructure and technical capacity, and project feasibility and sustainability frameworks required to bring utility-scale projects onstream in West Africa.

11:40 Fireside Chat - Financing renewable energy projects in West Africa: The Role of Partnerships, Collaboration and Regulatory Support

Attendee insights: Understand the key obstacles surrounding access to capital, financial incentives, complex regulatory environment, and currency risks. Panelists will also address solutions for these obstacles including local manufacturing initiatives, innovation, technology and alternative financing solutions.

**12:45 Fireside Chat:
Energizing the Digital Frontier: Transforming Nigeria's Energy Sector with Technology"**

Attendee insights: This keynote will explore how digital technologies are revolutionizing Nigeria's energy sector. Topics include smart grids, IoT applications, and the role of data analytics in optimizing energy production and distribution

13:00 Delegate Networking & Lunch | Exhibition Visit**14:30 Keynote : Sun, Wind, and Water: Harnessing Nigeria's Renewable Power Potential**

Attendee insights: This keynote will focus on strategies for increasing renewable energy adoption Nigeria. It will cover the integration of solar, wind, and hydro power into the national grid and showcase success stories and case studies

14:50 Panel discussion: Power Duos: Exploring the Future of Solar-Hydro Hybrid Energy

15:30 Presentation: Exploring the potential of green hydrogen to accelerate West Africa's transition to a clean and sustainable energy future

The session aims to raise awareness about the potential of hydrogen as a clean energy carrier in West Africa, identify key strategies and partnerships needed to unlock this potential, showcase existing initiatives and pilot projects related to hydrogen and foster dialogue and collaboration among stakeholders to advance the hydrogen economy.

Attendee insights: An awareness-raising session that discusses the opportunities and challenges for developing a hydrogen economy in West Africa

15:45 Fireside Chat: What's next – Unveiling the EV revolution in West Africa

While electric vehicles (EVs) are rapidly transforming transportation landscapes globally, West Africa faces a unique set of challenges and opportunities in joining this revolution. Hear firsthand from a leading EV company that has ventured into the West African market.

Attendee insights: A candid conversation that talks about the challenges, opportunities and strategies for success for a cleaner transportation future

16:15 Presentation: The ESG imperative in Nigeria's energy sector

Nigeria's power sector faces a critical juncture. While aiming to achieve a stable and reliable electricity supply, it also needs to consider the environmental, social, and governance (ESG) factors that contribute to a sustainable energy future.

Attendee insights: Understand the challenges and opportunities for improvement that Nigeria's power sector can adopt to pave way for a brighter future.

16:30 Fireside Chat: Africa on the Rise - Can Emissions Trading Unlock its Green Potential?

The session aims to raise awareness about the growing international carbon market and its potential benefits for Africa, explore different carbon market mechanisms and their suitability for African nations, discuss challenges and opportunities for effective participation of African countries and stakeholders and identify strategies to overcome barriers and maximize Africa's potential in the carbon market. By doing so, they aim to drive climate mitigation, attract investments, enhance sector resilience, and facilitate economic transformation toward a sustainable future.

Attendee insights: Explore strategies and collaborative approaches that can accelerate emissions trading within the context of a dynamic energy landscape. Participants will delve into market maturity, global alignment, innovation catalysts, and policy synergy.

17:00 Summary and closing remarks - Day two**17:10 Business networking**

Day Three
Wednesday, 17 October 2024**Gas-to-power Summit****10:00 Welcome by the Emcee****10:05 Keynote Address****10:25 Panel: Policy and Regulatory Frameworks for LNG, LPG, CNG and Gas to Power**

This session would explore the policy and regulatory frameworks that impact gas-to-power generation in Nigeria. Additionally, they could address potential reforms or improvements needed in this area.

Attendee insights: Learn about existing policies, regulations, and their effectiveness in promoting investment, ensuring sustainability, and fostering a conducive environment for gas-to-power projects.

11:25 Panel - Gas to Power Generation: Market Dynamics and Energy Security

This topic would examine market dynamics and energy security concerns pertaining to gas-to-power generation in Nigeria.

Attendee insights: Hear about supply-demand dynamics, pricing mechanisms, energy diversification strategies, and the role of gas-to-power in enhancing energy security within the country.

12:20 Panel - Building the Infrastructure for Tomorrow's Gas to Power Projects

Discussion on the latest developments in gas turbine technology and their implications for efficiency and power output.

13:00 Fireside Chat: Financing Innovations in the Gas Sector and Investor Perspectives on Gas to Power Projects

Exploring innovative financing models for gas to power projects and the role of private equity. Insights on investor confidence, risk management, and return expectations in the gas to power sector.

Attendee insights: Learn about financing options, risk management strategies, public-private partnerships, and the role of international investors in gas-to-power projects. Challenges such as market uncertainties, project bankability issues including currency devaluation and foreign exchange illiquidity, and geopolitical factors affecting investments will be discussed.

13:45 Summary and closing remarks - Day three**14:00 Delegate Networking & Lunch | Exhibition Visit**
