How can Nigeria Energy support you or your business?

The largest power and electricity event serving West African utility, commercial, industrial and key end-user markets.

Held under the patronage of Nigeria's Federal Ministry of Power, Nigeria Energy provides an opportunity for buyers and sellers from across the globe to discover the opportunities in West Africa's rapidly growing energy sector.

Accelerating sustainable energy supply in Nigeria, the event engages in deeper conversations on unlocking investment opportunities and the next steps for clean energy transition in West Africa.

Exhibit at Nigeria Energy

Generate new business

Network with industry leaders & potential buyers

Launch new products & services

Increase your international presence

Increase brand exposure

Get involved now

Benefits of exhibiting

Demonstrate your ability to provide solutions in an energy ecosystem primed for change

Meet the leading distributors, investors, financial institutions, policy-makers, dealers and small & medium traders within Africa's power sector

Establish your position in West Africa's energy market

Guarantee your place in the tender process for some of the West African region's leading energy projects at the live show

Showcase your latest products and services set to transform Africa's energy industry

"Nigeria is endowed with large oil, gas, hydro and solar resources, and it has the potential to generate 12,522 MW of electric power from existing plants." - **USAID**

Product Sectors at Nigeria Energy

Nigeria Energy unites the global energy community through dedicated product sectors within a combined mega-show.

Transmission & Distribution

Investment needs for transmission and distribution (T&D) range from USD 270 billion to USD 400 billion in Africa. The bulk of this investment is for domestic transmission as opposed to international connections. The solution for lowering the cost of T&D is looking at investing into alternative power methods such as renewable-promotion scenarios in countries and regions such as Nigeria.

Renewables & Energy storage

Renewable energy technologies are a constant challenge for governments, utilities and private projects, however through increased digitisation, retrofits and hybrid approaches progress is being made. Nigeria is emerging to be one of the most attractive solar energy markets in the region, initiatives such as solar mini-grids are part of new efforts in Nigeria to increase electricity and bolster energy security in Africa's most populous country.

Backup Generators & Critical Power

Backup generators and critical power in Nigeria is one of the the biggest markets in the country. At least 60 million Nigerians own generator sets and more than N3.5 trillion is spent yearly on fuelling these sets. 82.1% of the 28.9 million households in Nigeria do not have access to electricity from the national grid making generators an imperative part of people's lives. Investment in this field is needed to increase reliability and provide power generation solutions.

Energy Consumption & Management

Previously known as the Lighting sector, among the countries in the Africa region, Nigeria is the largest market for LED and OLED displays and lighting products and accounted for the largest market share. This growth is primarily attributed to the development of telecommunications infrastructure and increasing internet governance, which in turn is driving the smartphones penetration in the country.

Sponsorship Opportunities

Position your company as an essential partner to all stakeholders leading Nigeria's energy revolution.

Networking Reception sponsor

(pre-event) 14 October

Showcase your commitment to hospitality by elevating your brand's visibility, gaining exclusive recognition during this pivotal event.

Lunch Sponsor

Target speakers, delegates and VIPs during their preferred opportunity for relationship building.

Networking Gala Dinner Sponsor (Day 2)

Highlight your dedication to building connections and gain increased recognition as a key supporter of this special event.

Closing reception sponsor (Day 3)

Be visible during the catered wind-down. This is the ultimate opportunity for conference guests to network, exchange business cards and do business.

Cocktail sponsor (Day 1)

Your chance to resonate with the event's by-invite-only target audience in a celebratory environment.

Visitor bag sponsor

This distinctive opportunity extends your visibility, making a lasting impact on attendees and resonating well beyond the event itself.

Gift sponsor

A thank-you token to senior stakeholders leaves a lasting impression.
